Management of pulmonary arteriovenous fistulas after superior vena cava–right pulmonary artery (Glenn) anastomosis (Gomes et al.), 636 (brief comm.)

Anesthesia
Anesthesia for application of endotracheal and endobronchial radiation therapy (Rooney et al.), 693

Aneurysm, left ventricular
Results of surgical treatment of left ventricular aneurysms: assessment of risk factors affecting early and late mortality (Barratt-Boyes et al.), 87

Angina
Aorta-coronary bypass in patients with coronary artery disease who do not have angina (FitzGibbon et al.), 717

Angiographic evaluation
Serial angiographic evaluation 1 year and 9 years after aorta-coronary bypass: study of 55 patients chosen at random (Frey et al.), 167

Angioplasty, percutaneous transluminal coronary
Percutaneous transluminal coronary angioplasty in patients with prior coronary artery bypass grafting (Dorros et al.), 17
Surgical management of acute myocardial ischemia following percutaneous transluminal coronary angioplasty: role of intra-aortic balloon pump (Murphy et al.), 332

Annuloaortic ectasia
Aortoplasty and aortic valve replacement for annuloaortic ectasia in infant with Marfan's syndrome, forme fruste (Kawaguchi et al.), 631 (brief comm.)

Anomaly
Single-trunk anomalous origin of both coronary arteries from pulmonary artery: diagnosis and surgical management (Goldblatt et al.), 59
Total cavopulmonary shunt operation in complex cardiac anomalies: new operation (Kawashima et al.), 74

Antiarrhythmic agent
Creatine phosphate: additive myocardial protective and antiarrhythmic agent in cardioplegia (Robinson et al.), 190

Antibody
Elective cardiac operation in patient with severe hemophilia and acquired factor VIII antibodies (Leggett et al.), 556

Anticoagulation
Cardiac valve prostheses in children without anticoagulation (Pass et al.), 832

Aorta
Aorta-coronary bypass in patients with coronary artery disease who do not have angina (FitzGibbon et al.), 717
Coronary revascularization in presence of ascending aortic calcification: use of internal mammary artery–saphenous vein composite graft (Murphy and Hatcher), 789 (brief comm.)
Improvement in aerobic and hemodynamic responses to exercise following aorta-coronary bypass grafting (Hossack et al.), 901
Preliminary experience with new technique of insertion and removal of intra-aortic balloon pump into ascending aorta (Tchervenkov and Salerno), 475 (letter)

Aorta—Cont'd
Right ventricular–saphenous vein graft fistula: unusual complication of aorta-coronary bypass grafting (Riahi et al.), 626
Serial angiographic evaluation 1 year and 9 years after aorta-coronary bypass: study of 55 patients chosen at random (Frey et al.), 167
Spinal cord injury associated with hyperthermia during aortic coarctation repair (Crawford and Sade), 616
Subclavian arterioplasty: repair of coarctation of aorta in first year of life (Penkoske et al.), 894
Subclavian flap repair of coarctation of aorta in neonates: Realization of growth potential? (Moulton et al.), 220
Traumatic aorta-esophageal fistula (Gomez-Alonso et al.), 148 (letter)
Aortic arch
Interrupted aortic arch (Fishman), 320 (letter); Reply (Kron and Nolan), 320
Aortic root
Surgical treatment of prosthetic endocarditis: aortic root replacement using homograft (Lau et al.), 712
Aortic stenosis, subvalvular
Aortoseptal approach for optimal resection of diffuse subvalvular aortic stenosis (Vouhé et al.), 887
Operation for discrete subvalvular aortic stenosis (Cain et al.), 366
Aortic valve
Aortic valve homografts in surgical treatment of complex cardiac malformations (Fontan et al.), 649
Aortoplasty and aortic valve replacement for annuloaortic ectasia in infant with Marfan's syndrome, forme fruste (Kawaguchi et al.), 631 (brief comm.)
Management of critical aortic stenosis in infancy (Sink et al.), 82
Successful management of right ventricular failure with ventricular assist pump following aortic valve replacement and coronary bypass grafting (O'Neill et al.), 106
Aortoplasty
Aortoplasty and aortic valve replacement for annuloaortic ectasia in infant with Marfan's syndrome, forme fruste (Kawaguchi et al.), 631 (brief comm.)
Aortoseptal approach
Aortoseptal approach for optimal resection of diffuse subvalvular aortic stenosis (Vouhé et al.), 887
Arch, aortic
Interrupted aortic arch (Fishman), 320 (letter); Reply (Kron and Nolan), 320
Arrest
Blood flow distribution in infant pigs subjected to surface cooling, deep hypothermia, and circulatory arrest: deleterious effects in pigs with left-to-right shunts (Mavroudis et al.), 665
Biochemical termination of sustained fibrillation occurring after artificially induced ischemic arrest (Robicsek), 143 (brief comm.)
Brain damage in profound hypothermia: perfusion versus circulatory arrest (Molina et al.), 596
Arrhythmias
Creatine phosphate: additive myocardial protective and antiarrhythmic agent in cardioplegia (Robinson et al.), 190
Arrhythmogenicity
Evaluation of arrhythmogenicity of surgically induced endocardial versus ischemic myocardial damage (Wetstein et al.), 571
Arterioplasty
Subclavian arterioplasty: repair of coarctation of aorta in first year of life (Penkoske et al.), 894
Artery(ies). *See also* specific artery
Arteries, great, transposition of

Artificial heart
Artificial heart in human subjects (Kolff et al.), 825
Asai score system
Asai score system (Jacobs), 149 (letter)
Ascites, pleural
Pleural ascites without abdominal fluid: surgical considerations (Hartz et al.), 141 (brief comm.)
Assist pump
Implantable ventricular assist pump (Pierce), 811 (edit.)
Successful management of right ventricular failure with ventricular assist pump following aortic valve replacement and coronary bypass grafting (O'Neill et al.), 106
Atherosclerotic coronary vein grafts
Reoperation in patients with patent atherosclerotic coronary vein grafts: different approach to different disease (Grondin et al.), 379
Atresia, tricuspid
Surgical anatomy of hearts with no direct communication between right atrium and ventricular mass—so-called tricuspid atresia (Scalia et al.), 743
Atrial tachycardia
Incessant focal atrial tachycardia: surgically remediable cause of cardiomyopathy (Giorgi et al.), 466 (brief comm.)
Atriopulmonary anastomosis
Atrioventricular connections versus atriopulmonary anastomosis (Kreutzer), 147 (letter); Reply (de Leval), 147
Atrioventricular canal
Complete atrioventricular canal associated with tetralogy of Fallot: morphologic and surgical considerations (Uretzky et al.), 756
Tetralogy of Fallot with atrioventricular canal: angiographic study (Nath et al.), 421
Atrioventricular conduction bundle
Modification of precise relationship of atrioventricular conduction bundle to margins of ventricular septal defects by trabecula septomarginalis (Kurosawa and Becker), 605
Atrioventricular connections
Atrioventricular connections versus atriopulmonary anastomosis (Kreutzer), 147 (letter); Reply (de Leval), 147
Atrium
Broadly based pericardial flap: tissue for atrial wall replacement that grows (Guyton et al.), 619
Hemodynamic response to positive end-expiratory pressure following right atrium–pulmonary artery bypass (Fontan procedure) (Williams et al.), 856
Surgical anatomy of hearts with no direct communication between right atrium and ventricular mass—so-called tricuspid atresia (Scalia et al.), 743

B

Baffle, pericardial
Pericardial baffle complications following Mustard operation: age-related incidence and ease of management (Cobanoglu et al.), 371
Balloon catheter
Clinical application of transvenous mitral commissurotomy by new balloon catheter (Inoue et al.), 394

Balloon pump, intra-aortic
Paraplegia following percutaneous insertion of intra-aortic balloon (Rose et al.), 788 (brief comm.)
Percutaneous balloon pump (Spodick), 944 (letter); Reply (Akins), 944
Preliminary experience with new technique of insertion and removal of intra-aortic balloon pump into ascending aorta (Tchervenkov and Salerno), 475 (letter)
Surgical management of acute myocardial ischemia following percutaneous transluminal coronary angioplasty: role of intra-aortic balloon pump (Murphy et al.), 332
Banding of pulmonary artery
Reversibility of plexogenic pulmonary arteriopathy following banding of pulmonary artery (Wagenvoort et al.), 876
Biochemical assessment
Adverse effects on brain in cardiac operations as assessed by biochemical, psychometric, and radiologic methods (Åberg et al.), 99
Biochemical termination
Biochemical termination of sustained fibrillation occurring after artificially induced ischemic arrest (Robicsek), 143 (brief comm.)
Björk-Shiley prosthesis
Fracture of outlet strut of Björk-Shiley mitral prosthesis: emergency operation with survival (Ibarra et al.), 315 (brief comm.)
Thrombectomy for clotted Björk-Shiley prostheses: Is it really a proven procedure? (Moulton), 147 (letter); Reply (Alvarez Ayuso et al.), 148
Blalock-Taussig anastomosis
Chylopericardium after Blalock-Taussig anastomosis (Louhimo), 642 (letter); Reply (Rao), 642
Bleeding
Compound grafts of xenopericardium and Dacron fabric for repair or replacement of great vessels: method to avoid interstitial and suture hole bleeding (Nuñez et al.), 313 (brief comm.)
Blood cardioplegia
Cold blood potassium diltiazem cardioplegia (Standeven et al.), 201
Multidose blood versus crystalloid cardioplegia: comparison by quantitative assessment of irreversible myocardial injury (Feindel et al.), 585
Myocardial protection: comparison of cold blood and cold crystalloid cardioplegia (Iverson et al.), 509
Blood flow
Blood flow distribution in infant pigs subjected to surface cooling, deep hypothermia, and circulatory arrest: deleterious effects in pigs with left-to-right shunts (Mavroudis et al.), 665
Cerebral blood flow during cardiac operations (Del Campo and Nicholls), 798 (letter); Reply (Henriksen), 798
Cerebral blood flow during extracorporeal circulation (Fremes), 799 (letter); Reply (Henriksen), 799
Comparison of catecholamine effects on canine myocardial metabolism and regional blood flow during and after cardiopulmonary bypass (Ward et al.), 452
Pulmonary blood flow: potential factor in pathogenesis of pulmonary edema (Sniderman et al.), 130
Relationship of brain blood flow and oxygen consumption to perfusion flow rate during profoundly hypothermic cardiopulmonary bypass: experimental study (Fox et al.), 658
Brain
Adverse effects on brain in cardiac operations as assessed by biochemical, psychometric, and radiologic methods (Åberg et al.), 99
Brain—Cont'd
Brain damage in profound hypothermia: perfusion versus circulatory arrest (Molina et al.), 596
Relationship of brain blood flow and oxygen consumption to perfusion flow rate during profoundly hypothermic cardiopulmonary bypass: experimental study (Fox et al.), 658
Bronchial anastomosis
Influence of bronchial circulation and corticosteroid therapy on bronchial anastomotic healing (Pinsker et al.), 439
Bronchial circulation
Influence of bronchial circulation and corticosteroid therapy on bronchial anastomotic healing (Pinsker et al.), 439
Bronchial tumors
Biological implications of bronchial tumors (Warren et al.), 274
Bronchogenic carcinoma
En bloc (non-chest wall) resection for bronchogenic carcinoma with parietal fixation: factors affecting survival (Trastek et al.), 352
Bruit, carotid
Management of patients with carotid bruit undergoing cardiopulmonary bypass (Ivey et al.), 183
Bundle, conduction
Modification of precise relationship of atrioventricular conduction bundle to margins of ventricular septal defects by trabecula septomarginalis (Kurosawa and Becker), 605
Bypass, cardiopulmonary
Cardiopulmonary bypass for patients with previously documented heparin-induced platelet aggregation (Olinger et al.), 673
Comparison of catecholamine effects on canine myocardial metabolism and regional blood flow during and after cardiopulmonary bypass (Ward et al.), 452
Effect of prostacyclin infusion on platelet hemostatic function in patients undergoing cardiopulmonary bypass (Malpass et al.), 550
Management of patients with carotid bruit undergoing cardiopulmonary bypass (Ivey et al.), 183
Pressure monitoring during cardiopulmonary bypass (Kopman), 319 (letter); Reply (Stone and Khambatta), 319
Relationship of brain blood flow and oxygen consumption to perfusion flow rate during profoundly hypothermic cardiopulmonary bypass: experimental study (Fox et al.), 658
Bypass, coronary. *See also* Revascularization
Aorta-coronary bypass in patients with coronary artery disease who do not have angina (FitzGibbon et al.), 717

Electrophysiologically guided operations
Results of electrophysiologically guided operations for drug-resistant recurrent ventricular tachycardia and ventricular fibrillation due to coronary artery disease (Brodman et al.), 431
Endobronchial therapy
Anesthesia for application of endotracheal and endobronchial radiation therapy (Rooney et al.), 693
Endocardial damage
Evaluation of arrhythmogenicity of surgically induced endocardial versus ischemic myocardial damage (Wetstein et al.), 571
Endocardial ventriculotomy
Surgical treatment of ventricular tachycardias: complete versus partial encircling endocardial ventriculotomy (Ostermeyer et al.), 517
Endocarditis
Favorable ten-year experience with valve procedures for active infective endocarditis (Nelson et al.), 493
Surgical treatment of prosthetic endocarditis: aortic root replacement using homograft (Lau et al.), 712
Endotracheal therapy
Anesthesia for application of endotracheal and endobronchial radiation therapy (Rooney et al.), 693
Erratum
Erratum, 664
Esophagogastric corrosive lesions
Reconstructive operations for esophagogastric corrosive lesions (Noirclerc et al.), 291
Esophagus
Intramural pseudodiverticulosis of esophagus (Santos et al.), 120
Partial median sternotomy: anterior approach to upper thoracic esophagus (Orringer), 124
Reconstructive operations for esophagogastric corrosive lesions (Noirclerc et al.), 291
Traumatic aorta-esophageal fistula (Gomez-Alonso et al.), 148 (letter)
Exercise
Improvement in aerobic and hemodynamic responses to exercise following aorta-coronary bypass grafting (Hossack et al.), 901
Extracorporeal circulation
Cerebral blood flow during extracorporeal circulation (Fremes), 799 (letter); Reply (Henriksen), 799

F

Factor VIII antibodies
Elective cardiac operation in patient with severe hemophilia and acquired factor VIII antibodies (Leggett et al.), 556
Failure
Conditional probability of multiple coronary graft failure (Liddle et al.), 526
Fatigue-induced failure of Ionescu-Shiley pericardial xenograft in mitral position: in vivo and in vitro correlation and proposed classification (Gabbay et al.), 836
Successful management of right ventricular failure with ventricular assist pump following aortic valve replacement and coronary bypass grafting (O'Neill et al.), 106
Fallot, tetralogy of
Complete atrioventricular canal associated with tetralogy of Fallot: morphologic and surgical considerations (Uretzky et al.), 756
Hemodynamic effect of isoprenaline and dobutamine immediately after correction of tetralogy of Fallot: relative importance of inotropic and chronotropic action in supporting cardiac output (Jaccard et al.), 862
Tetralogy of Fallot with atrioventricular canal: angiographic study (Nath et al.), 421
Fatigue
Fatigue-induced failure of Ionescu-Shiley pericardial xenograft in mitral position: in vivo and in vitro correlation and proposed classification (Gabbay et al.), 836
Fibrillation
Biochemical termination of sustained fibrillation occurring after artificially induced ischemic arrest (Robicsek), 143 (brief comm.)
Effect of pH on hypothermic ventricular fibrillation threshold (Swain et al.), 445
Results of electrophysiologically guided operations for drug-resistant recurrent ventricular tachycardia and ventricular fibrillation due to coronary artery disease (Brodman et al.), 431
Fibroma
Successful surgical ablation of reentrant ventricular tachycardia caused by myocardial fibroma (Iwa et al.), 469 (brief comm.)
Fistula
Management of pulmonary arteriovenous fistulas after superior vena cava–right pulmonary artery (Glenn) anastomosis (Gomes et al.), 636 (brief comm.)
Right ventricular–saphenous vein graft fistula: unusual complication of aorta-coronary bypass grafting (Riahi et al.), 626
Traumatic aorta-esophageal fistula (Gomez-Alonso et al.), 148 (letter)
Flap, pericardial
Broadly based pericardial flap: tissue for atrial wall replacement that grows (Guyton et al.), 619
Flap, subclavian
Subclavian flap repair of coarctation of aorta in neonates: Realization of growth potential? (Moulton et al.), 220
Fluid, abdominal
Pleural ascites without abdominal fluid: surgical considerations (Hartz et al.), 141 (brief comm.)
Fontan procedure
Hemodynamic response to positive end-expiratory pressure following right atrium–pulmonary artery bypass (Fontan procedure) (Williams et al.), 856
Fracture
Fracture of outlet strut of Björk-Shiley mitral prosthesis: emergency operation with survival (Ibarra et al.), 315 (brief comm.)
Fungal mass
Management of intracardiac fungal masses in premature infants (Foker et al.), 244

G

Glenn anastomosis
Management of pulmonary arteriovenous fistulas after superior vena cava–right pulmonary artery (Glenn) anastomosis (Gomes et al.), 636 (brief comm.)
Glucagon
Pharmacologic antagonism of propranolol in dogs. III. Effects of dopamine-isoproterenol and glucagon on hemodynamics and myocardial oxygen consumption in ischemic hearts during chronic propranolol administration (Wei et al.), 732

Glucose
Effect of intermittent infusions of glucose-containing crystalloid cardioplegic solution on myocardial tissue lactic acid and recovery of contractility (Guilbeau et al.), 920
Graft
Compound grafts of xenopericardium and Dacron fabric for repair or replacement of great vessels: method to avoid interstitial and suture hole bleeding (Nuñez et al.), 313 (brief comm.)
Reconstruction of inferior vena cava with polytetrafluoroethylene tube graft after resection for hypernephroma of right kidney (Katz et al.), 791 (brief comm.)
Synchronously stimulated skeletal muscle graft for myocardial repair: experimental study (Dewar et al.), 325
Graft, coronary bypass
Conditional probability of multiple coronary graft failure (Liddle et al.), 526
Coronary revascularization in presence of ascending aortic calcification: use of internal mammary artery–saphenous vein composite graft (Murphy and Hatcher), 789 (brief comm.)
Early bypass grafting following intracoronary thrombolysis with streptokinase (Sterling et al.), 487
Improvement in aerobic and hemodynamic responses to exercise following aorta-coronary bypass grafting (Hossack et al.), 901
Late results of coronary artery grafting: Is there a flag on the field? (Grondin), 161 (edit.)
Percutaneous transluminal coronary angioplasty in patients with prior coronary artery bypass grafting (Dorros et al.), 17
Propranolol-induced postoperative hypertension following coronary artery bypass grafting (Bolling et al.), 112
Reoperation in patients with patent atherosclerotic coronary vein grafts: different approach to different disease (Grondin et al.), 379
Reperfusion of human myocardium by saphenous vein bypass grafts: biochemical considerations (Unverferth et al.), 577
Right ventricular–saphenous vein graft fistula: unusual complication of aorta-coronary bypass grafting (Riahi et al.), 626
Serial angiographic evaluation 1 year and 9 years after aorta-coronary bypass: study of 55 patients chosen at random (Frey et al.), 167
Successful management of right ventricular failure with ventricular assist pump following aortic valve replacement and coronary bypass grafting (O'Neill et al.), 106
Growth
Subclavian flap repair of coarctation of aorta in neonates: Realization of growth potential? (Moulton et al.), 220

H

Heart
Artificial heart in human subjects (Kolff et al.), 825
Effects of reperfusion after acute coronary occlusion on beating, working heart compared to arrested heart treated locally and globally with cardioplegia (Franco et al.), 561
Operative technique for heart-lung transplantation (Jamieson et al.), 930 (curr. tech.)
Pharmacologic antagonism of propranolol in dogs. III. Effects of dopamine-isoproterenol and glucagon on hemodynamics and myocardial oxygen consumption in ischemic hearts during chronic propranolol administration (Wei et al.), 732
Surgical anatomy of hearts with no direct communication between right atrium and ventricular mass—so-called tricuspid atresia (Scalia et al.), 743
Heart—Cont'd
Surgical palliation of subaortic stenosis in univentricular heart (Penkoske et al.), 767
Hemodynamics
Pattern of hemodynamic alterations during coronary artery operations (Estafanous et al.), 175
Pharmacologic antagonism of propranolol in dogs. III. Effects of dopamine-isoproterenol and glucagon on hemodynamics and myocardial oxygen consumption in ischemic hearts during chronic propranolol administration (Wei et al.), 732
Toward a better understanding of hemodynamic effects of protamine and heparin interaction (Stefaniszyn et al.), 678
Hemophilia
Elective cardiac operation in patient with severe hemophilia and acquired factor VIII antibodies (Leggett et al.), 556
Hemorrhage
Risk of thromboembolism and hemorrhage following mitral valve replacement: comparative analysis between porcine xenograft valve and Ionescu-Shiley bovine pericardial valve (Gonzalez-Lavin et al.), 340
Hemostasis
Effect of prostacyclin infusion on platelet hemostatic function in patients undergoing cardiopulmonary bypass (Malpass et al.), 550
Heparin
Cardiopulmonary bypass for patients with previously documented heparin-induced platelet aggregation (Olinger et al.), 673
Toward a better understanding of hemodynamic effects of protamine and heparin interaction (Stefaniszyn et al.), 678
Heterograft, valvular
Microscopic study of normal parietal pericardium and unimplanted Puig-Zerbini pericardial valvular heterografts (Allen et al.), 845
Histology
Histologic alterations in small cell carcinoma of lung after two cycles of intensive chemotherapy (Meyer et al.), 283
Homograft
Aortic valve homografts in surgical treatment of complex cardiac malformations (Fontan et al.), 649
Surgical treatment of prosthetic endocarditis: aortic root replacement using homograft (Lau et al.), 712
Hypernephroma
Reconstruction of inferior vena cava with polytetrafluoroethylene tube graft after resection for hypernephroma of right kidney (Katz et al.), 791 (brief comm.)
Hypertension
Propranolol-induced postoperative hypertension following coronary artery bypass grafting (Bolling et al.), 112
Hyperthermia
Spinal cord injury associated with hyperthermia during aortic coarctation repair (Crawford and Sade), 616
Hypotension
Profound hypotension from rapid vancomycin administration during cardiac operation (Dajee et al.), 145 (brief comm.)
Hypothermia
Blood flow distribution in infant pigs subjected to surface cooling, deep hypothermia, and circulatory arrest: deleterious effects in pigs with left-to-right shunts (Mavroudis et al.), 665
Brain damage in profound hypothermia: perfusion versus circulatory arrest (Molina et al.), 596
Effect of pH on hypothermic ventricular fibrillation threshold (Swain et al.), 445

Hypothermia—Cont'd
Relationship of brain blood flow and oxygen consumption to perfusion flow rate during profoundly hypothermic cardiopulmonary bypass: experimental study (Fox et al.), 658

I

Immunosuppression
Powerful but limited immunosuppression for cardiac transplantation with cyclosporine and low-dose steroid (Griffith et al.), 35
Impalement
Massive chest trauma due to impalement (Robicsek et al.), 614 (brief comm.)
Infancy. *See also* Childhood
Aortoplasty and aortic valve replacement for annuloaortic ectasia in infant with Marfan's syndrome, forme fruste (Kawaguchi et al.), 631 (brief comm.)
Management of critical aortic stenosis in infancy (Sink et al.), 82
Management of intracardiac fungal masses in premature infants (Foker et al.), 244
Subclavian arterioplasty: repair of coarctation of aorta in first year of life (Penkoske et al.), 894
Subclavian flap repair of coarctation of aorta in neonates: Realization of growth potential? (Moulton et al.), 220
Surgical closure of patent ductus arteriosus in 268 preterm infants (Wagner et al.), 870
Total tracheal reconstruction in three-month-old infant (Akl et al.), 543
Transatrial closure of perimembranous ventricular septal defect in infancy (de Leval), 640 (letter)
Infarction, myocardial
Immediate coronary bypass following failed streptokinase infusion in evolving myocardial infarction (Skinner et al.), 567
Infective endocarditis
Favorable ten-year experience with valve procedures for active infective endocarditis (Nelson et al.), 493
Intensivist
Who manages postoperative cardiac patient? (Kron et al.), 629
Interrupted aortic arch
Interrupted aortic arch (Fishman), 320 (letter); Reply (Kron and Nolan), 320
Intestine
Enteric thoracoabdominal duplications in children (Pokorny and Goldstein), 821
Intestinal obstruction
Fragmentation of Celestin tube causing intestinal obstruction: case report and review of literature (Palafox et al.), 698
Intra-aortic balloon
Paraplegia following percutaneous insertion of intra-aortic balloon (Rose et al.), 788 (brief comm.)
Preliminary experience with new technique of insertion and removal of intra-aortic balloon pump into ascending aorta (Tchervenkov and Salerno), 475 (letter)
Surgical management of acute myocardial ischemia following percutaneous transluminal coronary angioplasty: role of intra-aortic balloon pump (Murphy et al.), 332
Ionescu-Shiley valve
Fatigue-induced failure of Ionescu-Shiley pericardial xenograft in mitral position: in vivo and in vitro correlation and proposed classification (Gabbay et al.), 836
Ionescu-Shiley valve—Cont'd
Risk of thromboembolism and hemorrhage following mitral valve replacement: comparative analysis between porcine xenograft valve and Ionescu-Shiley bovine pericardial valve (Gonzalez-Lavin et al.), 340
Ischemia
Global ischemia in immature canine ventricle: enhanced protective effect of verapamil and potassium (Lupinetti et al.), 213
Surgical management of acute myocardial ischemia following percutaneous transluminal coronary angioplasty: role of intra-aortic balloon pump (Murphy et al.), 332
Ischemic arrest
Biochemical termination of sustained fibrillation occurring after artificially induced ischemic arrest (Robicsek), 143 (brief comm.)
Isografted lung
Reimplantation response in isografted rat lungs: analysis of causal factors (Prop et al.), 702
Isoprenaline
Hemodynamic effect of isoprenaline and dobutamine immediately after correction of tetralogy of Fallot: relative importance of inotropic and chronotropic action in supporting cardiac output (Jaccard et al.), 862
Isoproterenol
Pharmacologic antagonism of propranolol in dogs. III. Effects of dopamine-isoproterenol and glucagon on hemodynamics and myocardial oxygen consumption in ischemic hearts during chronic propranolol administration (Wei et al.), 732

K

Kidney
Reconstruction of inferior vena cava with polytetrafluoroethylene tube graft after resection for hypernephroma of right kidney (Katz et al.), 791 (brief comm.)

L

Lactic acid
Effect of intermittent infusions of glucose-containing crystalloid cardioplegic solution on myocardial tissue lactic acid and recovery of contractility (Guilbeau et al.), 920
Lillehei-Kaster valve
Experience with Omniscience and Lillehei-Kaster valves (Alstrup and Rygg), 940 (letter); Reply (Fananapazir), 940
Loading, volume
Prognostic implications of postoperative volume loading (Rubio Alvarez), 475 (letter); Reply (Weisel), 475
Lung
Histologic alterations in small cell carcinoma of lung after two cycles of intensive chemotherapy (Meyer et al.), 283
Operative technique for heart-lung transplantation (Jamieson et al.), 930 (curr. tech.)
Percutaneous drainage of lung abscess (Weissberg), 308
Reimplantation response in isografted rat lungs: analysis of causal factors (Prop et al.), 702
Lysis, intracoronary
Intracoronary thallium 201 scintigraphy as immediate predictor of salvaged myocardium following intracoronary lysis (Krebber et al.), 27

M

Malformation
Successful procedure for correction of Taussig-Bing malformation (Abe et al.), 403

Malignant mass
Cystic lesion of thymus: occasionally malignant cervical and/or anterior mediastinal mass (Graeber et al.), 295

Malignant paraganglioma
Malignant cardiac paraganglioma: follow-up of case (Cruz et al.), 942 (letter)

Malignant thymoma
Management of patients with malignant thymoma (Cohen et al.), 301

Mammary artery, internal
Coronary revascularization in presence of ascending aortic calcification: use of internal mammary artery–saphenous vein composite graft (Murphy and Hatcher), 789 (brief comm.)
Internal mammary artery: "live" conduit for coronary bypass (Singh and Sosa), 936 (brief comm.)

Marfan's syndrome
Aortoplasty and aortic valve replacement for annuloaortic ectasia in infant with Marfan's syndrome, forme fruste (Kawaguchi et al.), 631 (brief comm.)

Mass, fungal
Management of intracardiac fungal masses in premature infants (Foker et al.), 244

Mediastinal mass
Cystic lesion of thymus: occasionally malignant cervical and/or anterior mediastinal mass (Graeber et al.), 295

Mediastinum
Location of middle mediastinal pheochromocytomas (Shapiro et al.), 814

Metabolism
Comparison of catecholamine effects on canine myocardial metabolism and regional blood flow during and after cardiopulmonary bypass (Ward et al.), 452
Metabolic studies in chest trauma (Bartlett et al.), 503

Metastases, pulmonary
Analysis of prognostic factors in patients undergoing resection of pulmonary metastases from soft tissue sarcomas (Putnam et al.), 260

Microscopy
Microscopic study of normal parietal pericardium and unimplanted Puig-Zerbini pericardial valvular heterografts (Allen et al.), 845

Mitral valve
Clinical application of transvenous mitral commissurotomy by new balloon catheter (Inoue et al.), 394
Fatigue-induced failure of Ionescu-Shiley pericardial xenograft in mitral position: in vivo and in vitro correlation and proposed classification (Gabbay et al.), 836
Fracture of outlet strut of Björk-Shiley mitral prosthesis: emergency operation with survival (Ibarra et al.), 315 (brief comm.)
Risk of thromboembolism and hemorrhage following mitral valve replacement: comparative analysis between porcine xenograft valve and Ionescu-Shiley bovine pericardial valve (Gonzalez-Lavin et al.), 340

Muscle, skeletal
Synchronously stimulated skeletal muscle graft for myocardial repair: experimental study (Dewar et al.), 325

Mustard operation
Pericardial baffle complications following Mustard operation: age-related incidence and ease of management (Cobanoglu et al.), 371

Myocardial damage
Evaluation of arrhythmogenicity of surgically induced endocardial versus ischemic myocardial damage (Wetstein et al.), 571

Myocardial dysfunction
Traumatic myocardial dysfunction (Harley et al.), 386

Myocardial fibroma
Successful surgical ablation of reentrant ventricular tachycardia caused by myocardial fibroma (Iwa et al.), 469 (brief comm.)

Myocardial infarction
Immediate coronary bypass following failed streptokinase infusion in evolving myocardial infarction (Skinner et al.), 567

Myocardial injury
Multidose blood versus crystalloid cardioplegia: comparison by quantitative assessment of irreversible myocardial injury (Feindel et al.), 585

Myocardial ischemia
Surgical management of acute myocardial ischemia following percutaneous transluminal coronary angioplasty: role of intra-aortic balloon pump (Murphy et al.), 332

Myocardial metabolism
Comparison of catecholamine effects on canine myocardial metabolism and regional blood flow during and after cardiopulmonary bypass (Ward et al.), 452

Myocardial oxygen consumption
Pharmacologic antagonism of propranolol in dogs. III. Effects of dopamine-isoproterenol and glucagon on hemodynamics and myocardial oxygen consumption in ischemic hearts during chronic propranolol administration (Wei et al.), 732

Myocardial protection
Creatine phosphate: additive myocardial protective and antiarrhythmic agent in cardioplegia (Robinson et al.), 190
Long-term effects of cold cardioplegic myocardial protection in rat (McGregor et al.), 913
Myocardial protection: comparison of cold blood and cold crystalloid cardioplegia (Iverson et al.), 509

Myocardial repair
Synchronously stimulated skeletal muscle graft for myocardial repair: experimental study (Dewar et al.), 325

Myocardium
Effect of intermittent infusions of glucose-containing crystalloid cardioplegic solution on myocardial tissue lactic acid and recovery of contractility (Guilbeau et al.), 920
Intracoronary thallium 201 scintigraphy as immediate predictor of salvaged myocardium following intracoronary lysis (Krebber et al.), 27
Reperfusion of hyman myocardium by saphenous vein bypass grafts: biochemical considerations (Unverferth et al.), 577

Myxoma
Surgical considerations in treatment of cardiac myxoma (Semb), 251

N

Neonate
Cardiac rhabdomyoma: surgical treatment in neonate (Corno et al.), 725

O

Obstruction, intestinal
Fragmentation of Celestin tube causing intestinal obstruction: case report and review of literature (Palafox et al.), 698

Obstruction, left ventricular outflow tract
Late prognosis after localized resection for fixed (discrete and tunnel) left ventricular outflow tract obstruction (Moses et al.), 410

Occlusion
Effects of reperfusion after acute coronary occlusion on beating, working heart compared to arrested heart treated locally and globally with cardioplegia (Franco et al.), 561
Omniscience valve
Experience with Omniscience and Lillehei-Kaster valves (Alstrup and Rygg), 940 (letter); Reply (Fananapazir), 940
Reflections on Omniscience heart valve (DeWall), 941 (letter); Reply (Fananapazir et al.), 941
Results and complications with Omniscience prosthesis (Rábago et al.), 136
Results of valve replacement with Omniscience prosthesis (Panebianco), 939 (letter); Reply (Fananapazir), 939
Outflow tract, left ventricular
Late prognosis after localized resection for fixed (discrete and tunnel) left ventricular outflow tract obstruction (Moses et al.), 410
Surgical management of left ventricular outflow tract obstruction due to tricuspid valve pouch in complete transposition of great arteries (Ilbawi et al.), 66
Outflow tract, right ventricular
Pericardial-mechanical valved conduits in management of right ventricular outflow tracts: preliminary report (Goor et al.), 236
Output, cardiac
Hemodynamic effect of isoprenaline and dobutamine immediately after correction of tetralogy of Fallot: relative importance of inotropic and chronotropic action in supporting cardiac output (Jaccard et al.), 862
Oxygen consumption
Pharmacologic antagonism of propranolol in dogs. III. Effects of dopamine-isoproterenol and glucagon on hemodynamics and myocardial oxygen consumption in ischemic hearts during chronic propranolol administration (Wei et al.), 732
Relationship of brain blood flow and oxygen consumption to perfusion flow rate during profoundly hypothermic cardiopulmonary bypass: experimental study (Fox et al.), 658

P

Paraganglioma
Malignant cardiac paraganglioma: follow-up of case (Cruz et al.), 942 (letter)
Paraplegia
Paraplegia following percutaneous insertion of intra-aortic balloon (Rose et al.), 788 (brief comm.)
Parietal fixation
En bloc (non–chest wall) resection for bronchogenic carcinoma with parietal fixation: factors affecting survival (Trastek et al.), 352
Particulate contamination
Potential hazard of particulate contamination of cardioplegic solutions (Robinson et al.), 48
Patent ductus arteriosus
Surgical closure of patent ductus arteriosus in 268 preterm infants (Wagner et al.), 870
Percutaneous drainage
Percutaneous drainage of lung abscess (Weissberg), 308
Percutaneous transluminal coronary angioplasty
Percutaneous transluminal coronary angioplasty in patients with prior coronary artery bypass grafting (Dorros et al.), 17
Surgical management of acute myocardial ischemia following percutaneous transluminal coronary angioplasty: role of intra-aortic balloon pump (Murphy et al.), 332
Perfusion
Brain damage in profound hypothermia: perfusion versus circulatory arrest (Molina et al.), 596
Perfusion—Cont'd
Relationship of brain blood flow and oxygen consumption to perfusion flow rate during profoundly hypothermic cardiopulmonary bypass: experimental study (Fox et al.), 658
Pericardial baffle
Pericardial baffle complications following Mustard operation: age-related incidence and ease of management (Cobanoglu et al.), 371
Pericardial flap
Broadly based pericardial flap: tissue for atrial wall replacement that grows (Guyton et al.), 619
Pericardial-mechanical valved conduits
Pericardial-mechanical valved conduits in management of right ventricular outflow tracts: preliminary report (Goor et al.), 236
Pericardial xenograft
Fatigue-induced failure of Ionescu-Shiley pericardial xenograft in mitral position: in vivo and in vitro correlation and proposed classification (Gabbay et al.), 836
Pericarditis
Purulent pericarditis (Bennett), 641 (letter); Reply (Stephenson), 642; Reply (Driscoll and Rhodes), 642
Pericardium
Calcification of implanted xenograft pericardium: influence of site and function (Gabbay et al.), 782
Compound grafts of xenopericardium and Dacron fabric for repair or replacement of great vessels: method to avoid interstitial and suture hole bleeding (Nuñez et al.), 313 (brief comm.)
Microscopic study of normal parietal pericardium and unimplanted Puig-Zerbini pericardial valvular heterografts (Allen et al.), 845
Perimembranous ventricular septal defect
Transatrial closure of perimembranous ventricular septal defect in infancy (de Leval), 640 (letter)
pH
Effect of pH on hypothermic ventricular fibrillation threshold (Swain et al.), 445
Pheochromocytomas
Location of middle mediastinal pheochromocytomas (Shapiro et al.), 814
Platelets
Cardiopulmonary bypass for patients with previously documented heparin-induced platelet aggregation (Olinger et al.), 673
Effect of prostacyclin infusion on platelet hemostatic function in patients undergoing cardiopulmonary bypass (Malpass et al.), 550
Pleural ascites
Pleural ascites without abdominal fluid: surgical considerations (Hartz et al.), 141 (brief comm.)
Plexogenic pulmonary arteriopathy
Reversibility of plexogenic pulmonary arteriopathy following banding of pulmonary artery (Wagenvoort et al.), 876
Pneumonectomy
Postpneumonectomy pulmonary edema (Zeldin et al.), 359
Polytetrafluoroethylene tube graft
Reconstruction of inferior vena cava with polytetrafluoroethylene tube graft after resection for hypernephroma of right kidney (Katz et al.), 791 (brief comm.)
Porcine valve
Risk of thromboembolism and hemorrhage following mitral valve replacement: comparative analysis between porcine xenograft valve and Ionescu-Shiley bovine pericardial valve (Gonzalez-Lavin et al.), 340

Positive end-expiratory pressure
Hemodynamic response to positive end-expiratory pressure following right atrium–pulmonary artery bypass (Fontan procedure) (Williams et al.), 856
Potassium
Cold blood potassium diltiazem cardioplegia (Standeven et al.), 201
Global ischemia in immature canine ventricle: enhanced protective effect of verapamil and potassium (Lupinetti et al.), 213
Pouch, tricuspid valve
Surgical management of left ventricular outflow tract obstruction due to tricuspid valve pouch in complete transposition of great arteries (Ilbawi et al.), 66
Presidential address
From whence and whither to (Jamplis), 1
Pressure
Hemodynamic response to positive end-expiratory pressure following right atrium–pulmonary artery bypass (Fontan procedure) (Williams et al.), 856
Pressure monitoring during cardiopulmonary bypass (Kopman), 319 (letter); Reply (Stone and Khambatta), 319
Propranolol
Pharmacologic antagonism of propranolol in dogs. III. Effects of dopamine-isoproterenol and glucagon on hemodynamics and myocardial oxygen consumption in ischemic hearts during chronic propranolol administration (Wei et al.), 732
Propranolol-induced postoperative hypertension following coronary artery bypass grafting (Bolling et al.), 112
Prostacyclin
Effect of prostacyclin infusion on platelet hemostatic function in patients undergoing cardiopulmonary bypass (Malpass et al.), 550
Prosthesis, valve
Cardiac valve prostheses in children without anticoagulation (Pass et al.), 832
Fracture of outlet strut of Björk-Shiley mitral prostheses: emergency operation with survival (Ibarra et al.), 315 (brief comm.)
Results and complications with Omniscience prosthesis (Rábago et al.), 136
Thrombectomy for clotted Björk-Shiley prostheses: Is it really a proven procedure? (Moulton), 147 (letter); Reply (Alvarez Ayuso et al.), 148
Prosthetic endocarditis
Surgical treatment of prosthetic endocarditis: aortic root replacement using homograft (Lau et al.), 712
Protamine
Protamine-induced circulatory changes (Frater et al.), 687
Toward a better understanding of hemodynamic effects of protamine and heparin interaction (Stefaniszyn et al.), 678
Protection, myocardial
Creatine phosphate: additive myocardial protective and antiarrhythmic agent in cardioplegia (Robinson et al.), 190
Global ischemia in immature canine ventricle: enhanced protective effect of verapamil and potassium (Lupinetti et al.), 213
Long-term effects of cold cardioplegic myocardial protection in rat (McGregor et al.), 913
Myocardial protection: comparison of cold blood and cold crystalloid cardioplegia (Iverson et al.), 509
Pseudodiverticulosis
Intramural pseudodiverticulosis of esophagus (Santos et al.), 120
Psychometric assessment
Adverse effects on brain in cardiac operations as assessed by biochemical, psychometric, and radiologic methods (Åberg et al.), 99
Puig-Zerbini valvular heterografts
Microscopic study of normal parietal pericardium and unimplanted Puig-Zerbini pericardial valvular heterografts (Allen et al.), 845
Pulmonary artery
Hemodynamic response to positive end-expiratory pressure following right atrium–pulmonary artery bypass (Fontan procedure) (Williams et al.), 856
Management of pulmonary arteriovenous fistulas after superior vena cava–right pulmonary artery (Glenn) anastomosis (Gomes et al.), 636 (brief comm.)
Reversibility of plexogenic pulmonary arteriopathy following banding of pulmonary artery (Wagenvoort et al.), 876
Single-trunk anomalous origin of both coronary arteries from pulmonary artery: diagnosis and surgical management (Goldblatt et al.), 59
Total cavopulmonary shunt operation in complex cardiac anomalies: new operation (Kawashima et al.), 74
Use of pulmonary artery for left ventricular venting during cardiac operations (Little et al.), 532
Pulmonary blood flow
Pulmonary blood flow: potential factor in pathogenesis of pulmonary edema (Sniderman et al.), 130
Pulmonary edema
Postpneumonectomy pulmonary edema (Zeldin et al.), 359
Pulmonary blood flow: potential factor in pathogenesis of pulmonary edema (Sniderman et al.), 130
Pulmonary metastases
Analysis of prognostic factors in patients undergoing resection of pulmonary metastases from soft tissue sarcomas (Putnam et al.), 260
Pump, intra-aortic balloon
Percutaneous balloon pump (Spodick), 944 (letter); Reply (Akins), 944
Preliminary experience with new technique of insertion and removal of intra-aortic balloon pump into ascending aorta (Tchervenkov and Salerno), 475 (letter)
Surgical management of acute myocardial ischemia following percutaneous transluminal coronary angioplasty: role of intra-aortic balloon pump (Murphy et al.), 332
Pump, ventricular assist
Implantable ventricular assist pump (Pierce), 811 (edit.)
Successful management of right ventricular failure with ventricular assist pump following aortic valve replacement and coronary bypass grafting (O'Neill et al.), 106
Purulent pericarditis
Purulent pericarditis (Bennett), 641 (letter); Reply (Stephenson), 642; Reply (Driscoll and Rhodes), 642

R

Radiation therapy
Anesthesia for application of endotracheal and endobronchial radiation therapy (Rooney et al.), 693
Radiologic assessment
Adverse effects on brain in cardiac operations as assessed by biochemical, psychometric, and radiologic methods (Åberg et al.), 99
Reconstruction, tracheal
Total tracheal reconstruction in three-month-old infant (Akl et al.), 543
Reconstructive operations
Reconstructive operations for esophagogastric corrosive lesions (Noirclerc et al.), 291

Reimplantation response
Reimplantation response in isografted rat lungs: analysis of causal factors (Prop et al.), 702
Reperfusion
Effects of reperfusion after acute coronary occlusion on beating, working heart compared to arrested heart treated locally and globally with cardioplegia (Franco et al.), 561
Reperfusion of human myocardium by saphenous vein bypass grafts: biochemical considerations (Unverferth et al.), 577
Replacement, aortic root
Surgical treatment of prosthetic endocarditis: aortic root replacement using homograft (Lau et al.), 712
Replacement, valve. *See also* Valve
Aortoplasty and aortic valve replacement for annuloaortic ectasia in infant with Marfan's syndrome, forme fruste (Kawaguchi et al.), 631 (brief comm.)
Results of valve replacement with Omniscience prostheses (Panebianco), 939 (letter); Reply (Fananapazir), 939
Risk of thromboembolism and hemorrhage following mitral valve replacement: comparative analysis between porcine xenograft valve and Ionescu-Shiley bovine pericardial valve (Gonzalez-Lavin et al.), 340
Successful management of right ventricular failure with ventricular assist pump following aortic valve replacement and coronary bypass grafting (O'Neill et al.), 106
Respiratory distress
Talc and adult respiratory distress syndrome (Weissberg), 474 (letter); Reply (Rinaldo), 474
Revascularization. *See also* Bypass, coronary
Coronary revascularization in presence of ascending aortic calcification: use of internal mammary artery–saphenous vein composite graft (Murphy and Hatcher), 789 (brief comm.)
Rhabdomyoma, cardiac
Cardiac rhabdomyoma: surgical treatment in neonate (Corno et al.), 725
Risk factors
Results of surgical treatment of left ventricular aneurysms: assessment of risk factors affecting early and late mortality (Barratt-Boyes et al.), 87

S

Saphenous vein
Coronary revascularization in presence of ascending aortic calcification: use of internal mammary artery–saphenous vein composite graft (Murphy and Hatcher), 789 (brief comm.)
Reperfusion of human myocardium by saphenous vein bypass grafts: biochemical considerations (Unverferth et al.), 577
Right ventricular–saphenous vein graft fistula: unusual complication of aorta-coronary bypass grafting (Riahi et al.), 626
Sarcoma
Analysis of prognostic factors in patients undergoing resection of pulmonary metastases from soft tissue sarcomas (Putnam et al.), 260
Scintigraphy
Intracoronary thallium 201 scintigraphy as immediate predictor of salvaged myocardium following intracoronary lysis (Krebber et al.), 27
Septal defect, ventricular
Modification of precise relationship of atrioventricular conduction bundle to margins of ventricular septal defects by trabecula septomarginalis (Kurosawa and Becker), 605
Transatrial closure of perimembranous ventricular septal defect in infancy (de Leval), 640 (letter)
Shunt
Blood flow distribution in infant pigs subjected to surface cooling, deep hypothermia, and circulatory arrest: deleterious effects in pigs with left-to-right shunts (Mavroudis et al.), 665
Total cavopulmonary shunt operation in complex cardiac anomalies: new operation (Kawashima et al.), 74
Skeletal muscle
Synchronously stimulated skeletal muscle graft for myocardial repair: experimental study (Dewar et al.), 325
Small cell carcinoma
Histologic alterations in small cell carcinoma of lung after two cycles of intensive chemotherapy (Meyer et al.), 283
Soft tissue sarcomas
Analysis of prognostic factors in patients undergoing resection of pulmonary metastases from soft tissue sarcomas (Putnam et al.), 260
Solution, cardioplegic. *See* Cardioplegia
Spinal cord
Spinal cord injury associated with hyperthermia during aortic coarctation repair (Crawford and Sade), 616
St. Thomas' Hospital cardioplegic solution
Calcium and cardioplegia: optimal calcium content for St. Thomas' Hospital cardioplegic solution (Yamamoto et al.), 908
Stenosis
Aortoseptal approach for optimal resection of diffuse subvalvular aortic stenosis (Vouhé et al.), 887
Management of critical aortic stenosis in infancy (Sink et al.), 82
Operation for discrete subvalvular aortic stenosis (Cain et al.), 366
Resection of acquired tracheal stenosis in childhood (Alstrup and Sørensen), 547
Surgical palliation of subaortic stenosis in univentricular heart (Penkoske et al.), 767
Sternotomy, median
Partial median sternotomy: anterior approach to upper thoracic esophagus (Orringer), 124
Steroid
Powerful but limited immunosuppression for cardiac transplantation with cyclosporine and low-dose steroid (Griffith et al.), 35
Stomach
Reconstructive operations for esophagogastric corrosive lesions (Noirclerc et al.), 291
Streptokinase
Early bypass grafting following intracoronary thrombolysis with streptokinase (Sterling et al.), 487
Immediate coronary bypass following failed streptokinase infusion in evolving myocardial infarction (Skinner et al.), 567
Strut, outlet
Fracture of outlet strut of Björk-Shiley mitral prosthesis: emergency operation with survival (Ibarra et al.), 315 (brief comm.)
Subaortic stenosis
Surgical palliation of subaortic stenosis in univentricular heart (Penkoske et al.), 767
Subclavian artery
Subclavian arterioplasty: repair of coarctation of aorta in first year of life (Penkoske et al.), 894
Subclavian flap
Subclavian flap repair of coarctation of aorta in neonates: Realization of growth potential? (Moulton et al.), 220
Subvalvular aortic stenosis
Aortoseptal approach for optimal resection of diffuse subvalvular aortic stenosis (Vouhé et al.), 887

Surface cooling
Blood flow distribution in infant pigs subjected to surface cooling, deep hypothermia, and circulatory arrest: deleterious effects in pigs with left-to-right shunts (Mavroudis et al.), 665
Syndrome
Aortoplasty and aortic valve replacement for annuloaortic ectasia in infant with Marfan's syndrome, forme fruste (Kawaguchi et al.), 631 (brief comm.)
Talc and adult respiratory distress syndrome (Weissberg), 474 (letter); Reply (Rinaldo), 474

T

Tachycardia
Incessant focal atrial tachycardia: surgically remediable cause of cardiomyopathy (Giorgi et al.), 466 (brief comm.)
Results of electrophysiologically guided operations for drug-resistant recurrent ventricular tachycardia and ventricular fibrillation due to coronary artery disease (Brodman et al.), 431
Successful surgical ablation of reentrant ventricular tachycardia caused by myocardial fibroma (Iwa et al.), 469 (brief comm.)
Surgical treatment of ventricular tachycardias: complete versus partial encircling endocardial ventriculotomy (Ostermeyer et al.), 517
Talc
Talc and adult respiratory distress syndrome (Weissberg), 474 (letter); Reply (Rinaldo), 474
Taussig-Bing malformation
Successful procedure for correction of Taussig-Bing malformation (Abe et al.), 403
Tetralogy of Fallot
Complete atrioventricular canal associated with tetralogy of Fallot: morphologic and surgical considerations (Uretzky et al.), 756
Hemodynamic effect of isoprenaline and dobutamine immediately after correction of tetralogy of Fallot: relative importance of inotropic and chronotropic action in supporting cardiac output (Jaccard et al.), 862
Tetralogy of Fallot with atrioventricular canal: angiographic study (Nath et al.), 421
Thallium 201 scintigraphy
Intracoronary thallium 201 scintigraphy as immediate predictor of salvaged myocardium following intracoronary lysis (Krebber et al.), 27
Therapeutic thoracoscopy
Therapeutic thoracoscopy (Oakes et al.), 269
Thoracic esophagus
Partial median sternotomy: anterior approach to upper thoracic esophagus (Orringer), 124
Thoracoabdominal duplications
Enteric thoracoabdominal duplications in children (Pokorny and Goldstein), 821
Thoracoscopy
Therapeutic thoracoscopy (Oakes et al.), 269
Thrombectomy
Thrombectomy for clotted Björk-Shiley prostheses: Is it really a proven procedure? (Moulton), 147 (letter); Reply (Alvarez Ayuso et al.), 148
Thromboembolism
Risk of thromboembolism and hemorrhage following mitral valve replacement: comparative analysis between porcine xenograft valve and Ionescu-Shiley bovine pericardial valve (Gonzalez-Lavin et al.), 340
Thrombolysis
Early bypass grafting following intracoronary thrombolysis with streptokinase (Sterling et al.), 487
Thymoma
Management of patients with malignant thymoma (Cohen et al.), 301
Results of surgical treatment for thymoma (Shamji et al.), 43
Thymus
Cystic lesion of thymus: occasionally malignant cervical and/or anterior mediastinal mass (Graeber et al.), 295
Management of patients with malignant thymoma (Cohen et al.), 301
Trabecula septomarginalis
Modification of precise relationship of atrioventricular conduction bundle to margins of ventricular septal defects by trabecula septomarginalis (Kurosawa and Becker), 605
Trachea
Resection of acquired tracheal stenosis in childhood (Alstrup and Sørensen), 547
Total tracheal reconstruction in three-month-old infant (Akl et al.), 543
Transplantation
Operative technique for heart-lung transplantation (Jamieson et al.), 930 (curr. tech.)
Powerful but limited immunosuppression for cardiac transplantation with cyclosporine and low-dose steroid (Griffith et al.), 35
Transposition of great arteries
Surgical management of left ventricular outflow tract obstruction due to tricuspid valve pouch in complete transposition of great arteries (Ilbawi et al.), 66
Trauma
Massive chest trauma due to impalement (Robicsek et al.), 614 (brief comm.)
Metabolic studies in chest trauma (Bartlett et al.), 503
Traumatic myocardial dysfunction (Harley et al.), 386
Tricuspid atresia
Surgical anatomy of hearts with no direct communication between right atrium and ventricular mass—so-called tricuspid atresia (Scalia et al.), 743
Tricuspid valve
Surgical management of left ventricular outflow tract obstruction due to tricuspid valve pouch in complete transposition of great arteries (Ilbawi et al.), 66
Tumor
Biological implications of bronchial tumors (Warren et al.), 274

U

Univentricular heart
Surgical palliation of subaortic stenosis in univentricular heart (Penkoske et al.), 767

V

Valve. *See also* specific valve.
Aortic valve homografts in surgical treatment of complex cardiac malformations (Fontan et al.), 649
Aortoplasty and aortic valve replacement for annuloaortic ectasia in infant with Marfan's syndrome, forme fruste (Kawaguchi et al.), 631 (brief comm.)

Valve—Cont'd
Cardiac valve prostheses in children without anticoagulation (Pass et al.), 832
Experience with Omniscience and Lillehei-Kaster valves (Alstrup and Rygg), 940 (letter); Reply (Fananapazir), 940
Fatigue-induced failure of Ionescu-Shiley pericardial xenograft in mitral position: in vivo and in vitro correlation and proposed classification (Gabbay et al.), 836
Favorable ten-year experience with valve procedures for active infective endocarditis (Nelson et al.), 493
Microscopic study of normal parietal pericardium and unimplanted Puig-Zerbini pericardial valvular heterografts (Allen et al.), 845
Operation for discrete subvalvular aortic stenosis (Cain et al.), 366
Reflections on Omniscience heart valve (DeWall), 941 (letter); Reply (Fananapazir et al.), 941
Results of valve replacement with Omniscience prostheses (Panebianco), 939 (letter); Reply (Fananapazir), 939
Risk of thromboembolism and hemorrhage following mitral valve replacement: comparative analysis between porcine xenograft valve and Ionescu-Shiley bovine pericardial valve (Gonzalez-Lavin et al.), 340
Successful management of right ventricular failure with ventricular assist pump following aortic valve replacement and coronary bypass grafting (O'Neill et al.), 106

Valved conduit
Pericardial-mechanical valved conduits in management of right ventricular outflow tracts: preliminary report (Goor et al.), 236

Vancomycin
Profound hypotension from rapid vancomycin administration during cardiac operation (Dajee et al.), 145 (brief comm.)

Vein
Coronary revascularization in presence of ascending aortic calcification: use of internal mammary artery–saphenous vein composite graft (Murphy and Hatcher), 789 (brief comm.)
Reoperation in patients with patent atherosclerotic coronary vein grafts: different approach to different disease (Grondin et al.), 379
Reperfusion of human myocardium by saphenous vein bypass grafts: biochemical considerations (Unverferth et al.), 577
Right ventricular–saphenous vein graft fistula: unusual complication of aorta-coronary bypass grafting (Riahi et al.), 626

Vena cava
Management of pulmonary arteriovenous fistulas after superior vena cava–right pulmonary artery (Glenn) anastomosis (Gomes et al.), 636 (brief comm.)
Reconstruction of inferior vena cava with polytetrafluoroethylene tube graft after resection for hypernephroma of right kidney (Katz et al.), 791 (brief comm.)
Total cavopulmonary shunt operation in complex cardiac anomalies: new operation (Kawashima et al.), 74

Venting, ventricular
Use of pulmonary artery for left ventricular venting during cardiac operations (Little et al.), 532

Ventricle
Global ischemia in immature canine ventricle: enhanced protective effect of verapamil and potassium (Lupinetti et al.), 213
Surgical anatomy of hearts with no direct communication between right atrium and ventricular mass—so-called tricuspid atresia (Scalia et al.), 743

Ventricular aneurysm
Results of surgical treatment of left ventricular aneurysms: assessment of risk factors affecting early and late mortality (Barratt-Boyes et al.), 87

Ventricular assist pump
Implantable ventricular assist pump (Pierce), 811 (edit.)
Successful management of right ventricular failure with ventricular assist pump following aortic valve replacement and coronary bypass grafting (O'Neill et al.), 106

Ventricular dysfunction
Cause of right ventricular dysfunction after cardiac operations (Bailey et al.), 539

Ventricular failure
Successful management of right ventricular failure with ventricular assist pump following aortic valve replacement and coronary bypass grafting (O'Neill et al.), 106

Ventricular fibrillation
Effect of pH on hypothermic ventricular fibrillation threshold (Swain et al.), 445
Results of electrophysiologically guided operations for drug-resistant recurrent ventricular tachycardia and ventricular fibrillation due to coronary artery disease (Brodman et al.), 431

Ventricular fistula
Right ventricular–saphenous vein graft fistula: unusual complication of aorta-coronary bypass grafting (Riahi et al.), 626

Ventricular outflow
Late prognosis after localized resection for fixed (discrete and tunnel) left ventricular outflow tract obstruction (Moses et al.), 410
Pericardial-mechanical valved conduits in management of right ventricular outflow tracts: preliminary report (Goor et al.), 236
Surgical management of left ventricular outflow tract obstruction due to tricuspid valve pouch in complete transposition of great arteries (Ilbawi et al.), 66

Ventricular septal defect
Modification of precise relationship of atrioventricular conduction bundle to margins of ventricular septal defects by trabecula septomarginalis (Kurosawa and Becker), 605
Transatrial closure of perimembranous ventricular septal defect in infancy (de Leval), 640 (letter)

Ventricular tachycardia
Results of electrophysiologically guided operations for drug-resistant recurrent ventricular tachycardia and ventricular fibrillation due to coronary artery disease (Brodman et al.), 431
Successful surgical ablation of reentrant ventricular tachycardia caused by myocardial fibroma (Iwa et al.), 469 (brief comm.)
Surgical treatment of ventricular tachycardias: complete versus partial encircling endocardial ventriculotomy (Ostermeyer et al.), 517

Ventricular venting
Use of pulmonary artery for left ventricular venting during cardiac operations (Little et al.), 532

Ventriculotomy
Surgical treatment of ventricular tachycardias: complete versus partial encircling endocardial ventriculotomy (Ostermeyer et al.), 517

Verapamil
Global ischemia in immature canine ventricle: enhanced protective effect of verapamil and potassium (Lupinetti et al.), 213

Vessels, great
Compound grafts of xenopericardium and Dacron fabric for repair or replacement of great vessels: method to avoid interstitial and suture hole bleeding (Nuñez et al.), 313 (brief comm.)

Volume loading
Prognostic implications of postoperative volume loading (Rubio Alvarez), 475 (letter); Reply (Weisel), 475

W

Wall, atrial
Broadly based pericardial flap: tissue for atrial wall replacement that grows (Guyton et al.), 619
Western Thoracic Surgical Association
Announcement of 1984 Annual Meeting, 152, 323, 485, 647, 805, 951
Program for annual meeting, 807
Roster of members, 154

X

Xenograft
Calcification of implanted xenograft pericardium: influence of site and function (Gabbay et al.), 782
Fatigue-induced failure of Ionescu-Shiley pericardial xenograft in mitral position: in vivo and in vitro correlation and proposed classification (Gabbay et al.), 836
Risk of thromboembolism and hemorrhage following mitral valve replacement: comparative analysis between porcine xenograft valve and Ionescu-Shiley bovine pericardial valve (Gonzalez-Lavin et al.), 340
Xenopericardium
Compound grafts of xenopericardium and Dacron fabric for repair or replacement of great vessels: method to avoid interstitial and suture hole bleeding (Nuñez et al.), 313 (brief comm.)
